

GRADING SCALE
BASED ON PRACTICAL TEST STANDARDS

1

Performs maneuver within $\frac{1}{4}$ of PTS tolerances. The student demonstrates knowledge or skills with no procedural or mechanical errors and **the flight instructor does not provide any assistance.**

2

Performs maneuver within $\frac{1}{2}$ of PTS tolerances. The student demonstrates knowledge or skills that exceed standards. Occasional procedural or mechanical errors are quickly recognized and corrected.

3

Performs maneuver within PTS tolerances. The student consistently demonstrates knowledge and skills that meet standards with timely recognition of procedural or mechanical errors.

4

Performs maneuver outside of PTS tolerances. The student demonstrates knowledge and skills with difficulty, is slow in recognizing and correcting procedural or mechanical errors.

5

Performs maneuver outside of PTS tolerances. The student does not demonstrate adequate knowledge or skills, is unable to recognize and correct procedural or mechanical errors.
